PROPOSALS

For Publishing, by Subscription,

THE COMPLETE WORKS OF

SIR WALTER SCOTT:

With a Biography: being the first American (and only) edition which contains the Author's last additions and illustrations, arranged upon their respective pages.

A COMPLETE and uniform edition of the various productions of the great 'Minstrel of the North,' is a *desideratum* with the American public. No library is complete without them, and no edition extant is sufficiently compact for such a repository; while the endless number of editions, *without any uniformity in size,* heretofore published, besides being exceedingly cumbrous, are far too voluminous and expensive to be within the reach of the great majority of readers. The undersigned therefore announce, that they have now in press, and will issue, an edition of the Works of Sir Walter Scott, which will embrace all his Poems, Novels, Histories, Biographies, and Fugitive Compositions, as well as the Biography and Private Correspondence, now in the course of publication in England, under the superintendence of Mr. Lockhart.

1st. In Parts: each Part embracing as much matter as is contained in two volumes of the present editions of the Waverley Novels, which will be put at the unprecedented low price of THIRTY SEVEN AND A HALF CENTS.

2d. Two parts will appear each month; but should the publishers find the work to meet the patronage they anticipate, FOUR PARTS will be issued monthly.

3d. The whole will be completed in *seven volumes,* or *forty eight parts.*

The paper on which the above is now printing, has been made expressly for the purpose; the present parts may, therefore, be considered a fair specimen, in every respect, of the whole work; but, should dissatisfaction arise with any subscriber, owing to an inferior article being offered, he may discontinue at any time, and have the amount paid returned.

Note.—The publication of the first volume is deferred until the receipt of the Biography, Private Correspondence, and the New Edition of the Author's Poetical Works, with 'contemporary criticism—various readings—and correspondence with some of the most eminent persons of the time when the Poems first appeared,' now in the course of publication in England.

Volume 1 will be ornamented with an excellent Portrait of Sir Walter Scott.

CONNER & COOKE,
Franklin Buildings, corner of Ann and Nassau streets, New York.

☞Subscriptions received by S. J. SYLVESTER, corner of Wood and 3d streets, Pittsburgh.
August 14, 1833.

NEW PUBLICATIONS.

THE Bridgewater Treatises on the Power, Wisdom, and Goodness of God, as manifested in the Creation. Treatise 2—On the adaption of External Nature to the Physical condition of Man, principally with reference to the supply of his wants, and the exercise of his intellectual faculties. By John Kidd, M. D. F. R. S., Regries Professor of Medicine in the University of Oxford.

Theological Library, Nos. 3 and 4.—Luther, and the Lutheran Reformation: By John Scott, M. D., Vicar of North Ferriby, and Minister of St. Mary's, Hull, etc.: in 2 volumes.

Tales and Novels by Maria Edgeworth—vol. 5, containing Tales of Fashionable Life, and the Modern Griselda.

Boys' and Girls' Library of Useful and Entertaining Knowledge: vol. 12.—The Young Crusoe, or the Shipwrecked Boy: By Mrs. Hofland, Author of 'the Son of a Genius,' 'Stolen Boy,' &c. &c.

Library of Medical Sciences.—The Cyclopædia of Practical Medicine and Surgery: a Digest of Medical Literature: edited by Isaac Hays, M. D., Part 1.

June 14. *No. 38, Water street.*

TO LET,

THE Large Rooms in the brick building on the south west corner of Market and Fourth streets, occupied by the Pennsylvania Museum: immediate possession given. Enquire at the Museum. Feb. 5.

DAILY PITTSBURGH GAZETTE.

SATURDAY AFTERNOON, AUGUST 24, 1833.

A few days ago, we gave an account of a senatorial election in Marion and Hamilton, between the candidates, Messrs. Morris and Morrison, which resulted in the election of the latter gentleman, by a majority of one vote out of 3,035. The last Indiana Journal states that it had subsequently been ascertained that Mr. Morris had received one vote more than had been counted for him, so that there is a tie.

FIRE.—This morning, at one o'clock, about two thirds of an extensive *board yard*, in Allegheny town, was *burnt to the ground*, together with a small bakery, where it is supposed the fire originated. The Board yard belonged to Messrs. Davis & Morrison, of that place.

A great deal of credit is due to our Engine and Hose Companies, for their prompt aid and untiring exertions.

We find the above notice in the Advocate of this morning. It is proper, however, that we should add that, some persons who were present, assure us, that it was the *lumber* in the *board yard*, that was burnt, and that the *yard* itself escaped without any serious injury. We might, perhaps, venture to assert that the *yard* was '*to the ground*' before the fire.

In other respects, the above account of the fire is correct, and, we regret to add, that the loss of Messrs. Davis & Morrison amounts to twelve or fifteen hundred dollars.

A CHANGE.—In the last Mercury, we find the following sentence—

"The democratic delegates, in selecting from among their party, suitable candidates, acted on the *Jeffersonian* principle, "Is he honest? Is he capable?" and, as honest and capable men, will our candidates be supported by Jackson, Van Buren, M'Kean, and '*National Republican*' democrats."

What a change of opinion! there may be, it seems, *democrats*, even in the ranks of the *National Republicans*, or *M'Kean men!* Formerly, the Mercury was not so liberal. It used to be, that none but Jackson men were *democrats*. What is the immediate cause of this increased liberality? and why are not Federalists mentioned?

MAIL.—We received, this morning, but a single Philadelphia paper, and not one, either from New York or Boston. Failures of the mail were always serious disappointments to us, but we feel them more sensibly now, since we have commenced the issuing of a daily paper. At the moment when we need, and look for a full supply of, papers, it is not pleasant to find a very large defalcation from the usual number.

JEFFERSON COLLEGE, PA.—We have received a Catalogue of the Officers and students of this truly flourishing institution, from which we learn that the following is the "*The Faculty of the College*:"

MATTHEW BROWN, D. D. President.
JOHN M'MILLAN, D. D. Vice President, and Professor of Theology.
JAMES RAMSEY, D. D. Professor of Hebrew.
JOHN H. KENNEDY, A. M. Professor of Mathematics and Natural Philosophy.
JACOB GREEN, M. D. Professor of Chemistry, Mineralogy, and Natural History.
WILLIAM SMITH, A. M. Professor of Languages.
JOHN W. SCOTT, A. B. Assistant Teacher of Languages.
JAMES PARK, A. B. Teacher of the Preparatory School.
GEORGE M. HALL, A. B. Teacher of the French.

And, we also learn that, there are now attached to that institution, *two hundred and thirty seven* students, of which the following is a summary:—

Seniors,	28	Freshmen,	53
Juniors,	40	Preparatory,	55
Sophomores,	54	Irregulars,	7

For the Gazette.

AN ERROR CORRECTED.

MR. CRAIG—The editor of the Mercury, in his paper of to day, gives notice to foreigners, that the 3d Monday in September next, will be the only opportunity offered them, of becoming citizens before the election—*This is not the fact!* The supreme court, and the mayor's court, commence on the first Monday in October, (the week before the election,) at either of which aliens can be naturalized. A. B.

Friday, Aug. 23, 1833.

For the Gazette.

THE FIRE WORKS.

Sir, in your paper, I noticed an article headed "fire works"—giving informationt hat a pyrotechnical exhibition would be given, Thursday the 22d inst., on the Monongahela river, opposite this city. Being an admirer of displays of this nature, I went early in the evening, to view, from the place of departure, the several boats that were to be engaged in the *fete*. I saw, with pleasure, that the young men interested were not remiss in their preparations. They had three large flats employed; the first, or music boat, was tastefully and brilliantly lighted up by a number of chandeliers, suspended from artificial trees—these trees were also, well illuminated. On the edge of the boat, were placed about one hundred lamps, which cast a beautiful reflection on the water.—I saw on board a fine band of musicians—composed of the most respectable amateurs of this city. The second, or "fire boat," was designed to be placed about the centre of the river—as this boat held the materials, which were to be the principal scene of delight to the spectators, I determined to gratify my curiosity by inspecting them. On either end of the boat were formed batteries, which were intended to project, alternately, burning stars to the height, of from one to two hundred feet, and play on each other. Along the sides were running lines of "Chinese candles," port fires, revolving suns, serpents, &c. From the centre, sixty *proof* sky rockets were to be thrown. I examined these rockets, and found them compact, heavy, and well balanced. One of the young men informed me that in the head, or top, of each were placed a quantity of variegated stars, which fall, on the explosion of the rocket in the air. The third boat carried the ordnance, well manned, with about 70 rounds of cartridge on board. I returned to the bank of the river, well pleased with the arrangement. The signal was given, the boats unmoored beautifully, gained their proper stations on the river, and prepared for their descent—all "were on the tiptoe of expectation;" a rocket was brought, (oh, unfortunate rocket!) the match applied, and it went booming to the heavens! but its tail caused a very unexpected catastrophe—the sparks from it ignited the quick dry matches of others—which in the hurry of excitement of the moment were omitted to be covered, in an instant all was conflagration—all a mass of fire! and a scene presented itself that defies description. I never witnessed a spectacle more truly grand. The air was a density of burning works, more brilliant than the imagination can picture: this lasted for several minutes, until all was consumed—some of the young men, who were to act as engineers, were thrown overboard—others leaped into the water: all were taken out unhurt by the efficient commander, who had a yawl prepared for any emergency, with the exception of the principal pyrotechnick, who was considerably burned.

The whole was a decided failure, excepting the 1st, or music boat, to the members of which we cannot but give credit for the masterly manner in which they "*covered the retreat*"—the music was excellent. Many of the citizens, who went to witness the "fire works," placed themselves at such a distance from the place of debarkation, that they were not aware of the accident which debarred them from their anticipated pleasure, and returned home much disappointed. We attach no blame to any one. An *accident* prevented us from beholding an exhibition that would not only have done credit to those engaged in it, but would have been a source of gratification and delight to every spectator. A CITIZEN.

For the Gazette.

THE MANAGEMENT OF BEES.

MR. CRIAG—Through the medium of your paper, I shall take the liberty of presenting a few useful hints, in the management of bees, as a security against the ravages of the moth, and to procure an increase of stock, without the trouble of hiving them.

Having had occasion to call at the house of Mr. Isaac Hultz, a few days ago, he very kindly shewed me his plan, which was, as near as I can recollect, as follows:—

He has a house erected, eight feet square, without studding, except the corner posts, in order that the bees may not be interrupted in their going from place to place in the house; it is likewise intended to be perfectly tight, with the exception of the holes made in the sides of the house for the ingress and egress of the bees, and the holes are made within three or four inches of the roof, rendering it necessary for the bees to travel upwards four or five feet from the shelves, which are placed near the floor; and simply two boards 16 or 18 inches wide, the length of the house; the lower board supported by blocks four or five inches high, the upper is supported on the other by having a board at each end as an upright, about 18 inches high, and rods of 3-4 inch in diameter leaning at an angle of 45 degrees, so as to completely support the upper board in the intermediate space, likewise for the bees to build to, as a support for their comb.—Mr. Hultz had but one hive saved through the winter and ravages of the worm, he cut a hole in the upper shelf about 12 inches square, or near the size of the inside diameter of the scap, placed it on about the time the peach trees bloomed, and then looking to them every day, cleaning the worms and other matter that was thrown from the scap, until they were thoroughly cleansed, since which time he has not seen a worm; the bees have filled the scap on the top, and have built a very considerable quantity of combs between the shelves. By opening the door and going in, you may see the performance of each days labor, and at any time take a comb, or any quantity you choose: the reason assigned for making the holes near the roof is, that the moth, which lays the eggs, always makes direct for the honey which is in the lower part of the house, not having instinct enough to climb or fly to the place of entrance for the bees, and thus are foiled in their attempt. On these suggestions there might perhaps be great improvements, such as having the bees to work in boxes or drawers, so that by taking away honey, you do not disturb the remaining part. Mr. Hultz lives East of the Washington road, about 1-2 mile, and seven miles from Pittsburgh: he is an intelligent farmer, and will with pleasure show and tell all about the method pursued by him.

STATISTICS

Taken from the Report on the manufacture of Glass, by the Committee of the New York Convention, in November, 1831.

There were 21 furnaces, containing one hundred and forty pots, for the manufacture of Flint Glass, located as follows:

Boston, and its vicinity,	2	Furnaces.	38	Pots.
Providence, R. I.,	3	"	12	
N. York, and its vicinity,	3	"	22	
Philadelphia,	1	"	6	
Baltimore,	2	"	12	
Pittsburgh, Pa.,	3	"	32	
Wellsburgh, Va.,	2	"	12	
Wheeling, do.,	1	"	6	
	Furnaces, 21		Pots, 140	

The total value of flint glass made in the United States, in these furnaces, is $1,300,000. The whole quantity of materials consumed, in the 21 furnaces, is equal to

1450 tons, or 2,900,000 lbs. of lead.
900 do., or 1,800,000 lbs. of pearl ashes.
2600 do., of Sand; 1,000 do. fine clay.
109 do., or 200,000 lbs. of saltpetre.

The tonnage employed to transport raw materials, coal, &c., by two of the most extensive manufactories in the vicinity of Boston, taken from authentic accounts, were, in 1831, 22,500 tons.

Equal to the constant employment of	750 tons.	
Tonn. employed for transporting manuf'd glass to markets in U. States,		4,800
Equal to the constant employment of	450	
Tonnage of glass ware annually shipped to foreign countries.		700
Equal to the constant employment of	100	
Tons in cons't empl'm't	1,300 tons.	28,000 tons.

The committee are advised of the existence of 23 manufactories of Cylinder Window Glass, in the United States, situate as follows:—

Chelmsford, Mass.	1	Keene, N. H.	1
Burlington, Vt.	1	Wellington, Conn.	1
Geneva, N. Y.	1	Hamilton, N. Y.	1
Pittsburgh, Pa.	4	Brownsville, Pa.	4
Baltimore, Md.	1	Cumberland, Md.	1
Washington, D. C.	1	Wheeling, Va.	1
Zanesville, O.	1	Moscow, O.	1
Williamsport, Pa.	1	Geneva, Pa.	1

The Committee have no data to determine whether or no the Chelmsford is a fair average of the whole number; many of them are known to be more extensive, but estimating the others by that one, it follows that the 23 cylinder glass works employ as Capital, $690,000.

Pay annually in wages, $230,000.

Give employment to 600 men.

Produce in window glass, 172,500 boxes, or 8,625,000 squre feet.

Thus the whole amount of glass now (in 1831) annually manufactured in the United States, is at least—

Flint Glass Ware,	$1,300,000
Glass bottles, phials, demijohns, &c.,	200,000
Crown Window Glass,	150,000
Cylinder Window Glass,	851,000
	$2,501,000

The whole number of workmen exceeds 1,800.

The amount of wages paid is equal to $600,000. Subsisting a population of 9,000 persons.

The manufactory of carboys, demijohns, &c. is near Boston, Mass. and it makes 6000 gross annually, employing $59,000 capital, 565 men and boys, who receive in wages 26,000 dollars a year.

There were, at the time of this report, two crown glass manufactories—The New England Crown Glass Manufactory, near Boston, and one just established in the State of New York.—*N. Y. Merc. Adv.*

From the American Sentinel.

It must be gratifying to the friends of the American Colonization Society and system, to find that their views are adopted, and their objects so ably advocated and advanced by such a meeting as that of which we give the following account, from a London paper. We have never hesitated acknowledging the utility of the system and society in this country for colonizing in Africa the free people of color, so far as the means could possibly be procured. We knew that the motives operating and the measures pursued were creditable to the parties engaged; and that the object would be advantageous to all the free among us—particularly the colored themselves; yet were we aware of the inadequacy of the means—although we could not think with some of our contemporaries that therefore the object should be decried or discouraged. Better act—thought we—in an eligible manner with half the means properly laid out so as to produce even a partial effect as an incipient progress, than continue stagnant in such a business—and do nothing because we could not do all. Although, as an ancient philosopher says—" Better do nothing than to be doing of nothing,"—still is it better to do something good even if not so as to answer expectation or hope, rather than let energy lie dormant or corrode itself.

COLONIZATION SOCIETY.

We annex the resolutions passed at the London meeting on this subject. They explain themselves. The first resolution, as appears to us, presents the subject in the light in which all may and should unite in supporting Colonization Societies.

At a meeting of the friends of African colonization, and the abolition of the slave trade, held at the Hanover Square Rooms, on Wednesday, July 3, His Royal Highness, the Duke of Sussex, in the chair, the following resolutions were agreed to:

1. *Proposed by the Right Hon. Lord Bexley: seconded by J. S. Buckingham, Esq., M. P.*

That Colonies, established on judicious principles, on the Coast of Africa, and composed of settlers of African race, either born free or emancipated, appear calculated to put an effectual stop to the slave trade, and to introduce, under the guidance of Divine Providence, the blessings of Christianity and civilization, by affording the assistance of pious and well educated instructors of bodily constitutions adapted to the climate, as well as by the immediate influence and example of the settlers.

2. *Proposed by J. Crawford, Esq., seconded by J. A. Roebuck, Esq., M. P.*

That a society be formed under the name of the British African Colonization Society, and that its objects be to promote the establishment of Christianity and Colonization among the natives of Africa, chiefly by the employment of persons of African birth or descent; and to take such measures as may tend to the entire abolition of the slave trade, which is still unhappily carried on to an alarming extent upon the African coast.

3. *Proposed by Lieut. Rosenberg, R. N.; seconded by R. Potter, Esq., M. P.*

That for these purposes they will, among other measures, enter into correspondence and co-operation with the American Colonization Society, and with the several Missionary and other Religious and Charitable Societies in Great Britain, the U. States, and elsewhere, in their endeavors to raise the civil, moral, and religious condition of the Africans.

4. *Resolution proposed by Dr. Lister, Esq. and seconded by Thomas Hodgskin, Esq. M. D.*

That every subscriber of not less than one guinea per annum, or ten guineas in one sum be a member.

5. *Proposed by the Right Hon. Lord Bexley, and seconded by Captain Chapman.*

That the following gentleman be authorised to receive subscriptions, and form a committee to carry into effect the objects of the above resolutions, with power to add to their number.

Patron.

His Royal Highness the Duke of Sussex.

President.

The Right Honorable Lord Bexley.

Vice President.

The Marquis of Westminister, Right Hon. Sir G. Murray, T. Richardson, Esq. Stamford Hill, J. I. Briscoe, Esq. M. P., and James Douglass, Esq (of Cavers.)

Treasurers.

S. Biddulph, Esq. 44 Charing Cross; and W. A. Hankey, Esq. 7 Fenchurch street, where subscriptions will be received.

J. S. CHAPMAN, Secretary.

The Deposits.—We learn, from an authentic source, that the circular of the Treasury Agent, Mr. Kendall, has been favorably received in Boston; and that the banks in that city are ready, not only to collect and disburse the public revenue receivable in Massachusetts, in such a manner as the Government may direct, but to give ample security for the safety of the deposits, and the faithful performance of the duty they undertake. We also learn, that one of the banks in Portland, (Me.) has proffered its services with security, voluntarily, without any application having been made to it.

The result of the inquiries made by Mr. Kendall of the banks in the large commercial cities, would seem to indicate, pretty clearly, that if the government should think proper to withdraw the deposits from the United States Bank, it will find no difficulty in making the necessary arrangements; and that, on the part of many of the most solid State Banks, there is no apprehension of the insurmountable difficulties and dangers which have been so strongly depicted by a portion of the newspaper press, as the necessary consequence of such a measure. We do not profess to be very conversant with the subject, but it strikes us, that either those difficulties have been greatly exaggerated, or the State Banks, whose interests are identified with those of the commercial community, are governed by a suicidal policy in offering to receive the deposits on any terms.—Should it be the wish of the administration to change the deposits, as it would seem to be, from the appointment of an agent to invite proposals from the state banks, the report of Mr. Kendall, there is no reason to doubt, will go far to satisfy them, that it can be done with safety; and it may fairly be presumed, that little time will be lost in making the transfer.—*Amer. Sent.*

It is worthy of remark that in North Carolina, the partisans of Nullification made no stand at all in the late election. Of the late delegation in Congress, eight voted for the "Force Bill," as the bill for collecting the revenue has been ingeniously called, by its adversaries;—and four against it—one being absent. Not one of those who voted *for* the bill was opposed on that ground, and all have been re-elected except Mr. Bethune, whose opponent, Mr. Deberry, is not suspected of the S. Carolina heresy. They are old antagonists for this seat, and the district is always very doubtful. In 1829, Mr. Deberry was elected by a majority of about 30. He was defeated in 1831, by 27; and is now elected by nearly the same vote. Of the four who voted against the Force Bill, only one, S. P. Carson, is believed to have been an open nullifier, and he has since disavowed it. The other three have been rechosen without opposition. We, therefore, conclude that the Nullifiers have despaired of drawing the people of North Carolina into that political faith.—*Balt. Amer., Aug.* 20.

The New Testament translated into the *Chippewa language* by *Dr. Edwin James*, of the United States' Army, has just been published at Albany, by Packard & Van Benthysen. We have seen a copy of it. It is well printed, presenting the *Chippewa* words in our ordinary type; its use, therefore is, of course, confined to missionaries, or Indians conversant with our alphabet. As, however, the instructions of the Indians must, in any event, be oral, so very few of them being able to read, this forms no objection to this mode of printing. Moreover it was the only practicable one, as there is no Chippewa alphabet. The language, however, is common to the Six Nations, and is, it is said, understood by the Southwestern Indians. If so, this Testament may be read to the greater part of the Indian tribes of our borders Dr. James has, we understand, devoted more than ten years to this work,—which the highest motives alone, it is obvious, could have prompted him to undertake; for neither profit nor literary fame can be anticipated from such an enterprize. He has, in the course of his official duties, been much among, and seen much of the Indians. How he is looked upon, by one of their Chiefs, at least, will appear from the annexed copy of a letter addressed to him, by *Thegud*, a Chief of the band of Chippewas, living at Tukquimenon, on the south shore of Lake Superior:

BOWWETING, May 12, 1833.

My Brother—Now I cause this letter to be written to you. I wish to tell you my thoughts. I was very sorry when I heard that you had gone away. I wished I had watched to have seen you. But I am yet alive. It pleases our Great Father in Heaven that I should still live here on the earth. And also of you I yet hear the sound of your living. I think great thanks that we are both yet alive. Perhaps we may not expect to see each other again on this earth. Do thou take heed also to this our religion. I do not say this as distrusting you. I only am to be pitied, I was too long lost; and even now I am very much afraid of those things that destroyed us. But as much as I can now do, that I may look carefully to our Great Father in Heaven, this is what I say to you now.

And I tell you now how I have lived. I lost one of my children. Afterwards I thought I could never be comforted, I had so loved my child. But I thank him that is above that he thought good to leave me my other children. I am very much pleased at what the whites have done here at Bowweting. Truly they have had compassion on us. I am not now such as I used to be before I prayed. I do not now wish for those things I used to wish for. Now those that are here at Bowweting are to me as my brothers. I tell you also that teachers are more and more abundant at Bowweting, but there are still many wicked men, rejecting prayer [religion.] This is all I say to you. I request that you also will send to me your thinking. I salute all your family. THEGUD.

We doubt whether any thing in Mr. Hamilton's work on the United States is more severe upon the New Yorkers than the following, which we find in the shape of a communication, in the New York Gazette, where it would not have obtained a place, if not either known to be true, or from a respectable source:

" Wealth commands the ear of greatness, and the eye of beauty."—*Johnson.*

This passage, in the Rambler, struck my attention as one of the *truisms* of the present day. I attended the funeral of an *old patriot* a short time since. The first question that was put to me, by one of the company, (knowing that I was a relative) was *how will he cut up?* or, in other words, what will the *intestate* leave his family? He has lived to an old age, and must have amassed a very large estate. Not a word was said, or a question asked how he had lived; whether he had been a useful member of society, in his day and generation; set an example for others to imitate! No, this subject was foreign from the minds of all I saw or heard; not a word was uttered as to his character and life; and few men had left a better memorial of *a well spent life on record.* This fact plainly shows the great depravity of our nature, and the little glimmering there is left in the socket. If we examine the religious journals of the day, and see the numerous societies that are formed in this city, and the books that are published, one would naturally suppose that we were the most moral and religious class of society in the world. I will endeavor to solve the enigma. Every man is for himself, and not for another, from the highest to the lowest, in society; neither looking to the right nor to the left, as long as he can accomplish the object of his pursuit—*money.*

The steamboat Columbus, Captain Mitchell, was to have left Baltimore yesterday, to sail via Norfolk for the Rip Raps, in order to convey the President on his return home this afternoon for Washington. The health of the President has fortunately been restored by his stay at the Rip Raps—he had not to endure the ceremonies he could not enjoy, as on his presidential tour.—*American Sentinel, Aug.* 21.

Dr. Isaacs, whose apothecary shop is at the north west corner of Walnut and Third streets, showed us, yesterday, a chamber lamp of most admirable construction. It is not heavier nor larger than an ordinary sized hand lamp, yet, by the use of a self acting blow pipe, it may be made to heat a gallon of water in two or three minutes, and smaller quantities in a proportionably less time.—This is an admirable invention for a sick chamber; indeed, families generally would feel a safety in the possession of such an article at all times; and, in case of sudden sickness, requiring an early application of heated water, the lamp would be invaluable. It is cheap as well as convenient.—*Phil. U. S. Gaz.*

Irregularity of Clocks.—It is a well known fact, that one of the causes by which eight day Clocks go at times irregularly, and monthly Clocks whose weights are much heavier, often amounting to not less than thirty pounds, stop suddenly, proceeds from the attraction which takes place between their leaden weights and the leaden ball of the pendulum, when they have descended just so low as to come on a level, and consequently very nearly in a state of contact with the pendulum ball. And hence the reason why both these species of clocks, if the pendulum have not actually stopped, seem gradually, a few days afterwards, to recover their wanted vigor and former accuracy; the attraction diminishing as the distance once more increases. Another very simple and common cause of inaccuracy in pendulum clocks of all kinds, arises from their not hanging exactly perpendicular. A very slight inclination to either side, so slight as to be unobserved by the eye—destroys the attraction of the ball to the true centre of the arc described by the pendulum when in motion. The artificial and natural impetus ceases to exist, and the pendulum naturally drops to a state of rest. Attention to either exposition will not only save time, but many dollars; and very possibly the time of a very long journey, to call in or consult the Family Physician of this invaluable piece of Mechanism.

We hear that several of the Nobility are benevolently engaged in forwarding a plan for the gratuitous instruction of the sons of foreigners in distress. Nothing of more true philanthropy could have been conceived. Many of the refugees, Spanish, Portuguese, Polish, and Italian, are unable to pay for such an education for their sons as would correspond with their own former station in life, and fit the youths to hold the same station when it shall please Providence to restore them to the land of their ancestors. The Queen is expected to take part in this benevolent project.

Pere le Chaise.—Since the consecration of this cemetry in 1804, upwards of 130,000 persons have been interred within its walls. A bronze statue is about to be erected on the tomb of Talma; and the bust of Manuel is in a state of great forwardness. The sepulchre of this eminent man is placed close to the splendid monument of Gen. Fay.

There is at present, in perfect operation, at the penitentiary, near Trenton, (N. J.) a machine for the purpose of punching holes in bars of iron.—Seven holes can be perforated in one minute and a quarter through bars half an inch thick, each hole being one and a quarter inches diameter, and the bar perfectly cold. This is a very great labor and time saving invention, and is worthy the attention of those engaged in that branch of mechanics.

A Grand Rail Road Spectacle.—The locomotive engine, on the Baltimore and Susquehanna rail road, came in on Sunday evening, a little before 7 o'clock, with fourteen cars in its train; averaging, as nearly as we could judge, thirty persons to each car—making a total of 420. These persons were mostly those who had been to the camp meeting near Reister town, and were on their return. The sight was truly grand! The movement of the long train, as it were by magic, at an easy speed, at the rate of about 16 miles to the hour, around the spurs of hills, following the serpentine course of the wild and tumbling stream, the banks and rocks of which, in the vicinity of every settlement, were enlivened by spectators—the younger with smiling faces, and the older with a kind wonder and astonishment, at the reflection, no doubt, at the change which two or three years, with industry and enterprize, had effected in their rocky and woody neighborhood. The salubrity of the atmosphere was beyond all comparison—and the pleasantness of the day—the mild, refreshing breezes—and the quiet and orderly conduct of every passenger—rendered the scene, and every thing relative to it, most truly delightful.—*Balt. Chron.*

Easton, Pa. August 16, 1833.

Paving Stones.—A very brisk and profitable trade is being carried on between this place and the City of Philadelphia, in the article of paving stones, the stock of which, at this place is almost inexhaustible. They are collected here, principally out of the Bed of the River, put on Board of Canal Boats which carry from 35 to 50 Tons and transported to Philadelphia where they find ready market at the rate of $3 for a cart load containing about 32 cubic feet, or a Ton and a half.

A gentleman, it is said, had a board put up on a part of his land, on which was written—"I will give this field to any one who is really contented:" and when an applicant came, he always said, "are you contented?" The general reply was, "I am." "Then," rejoined the gentleman, "what do you want with my field?"

Large Ships.—The great British ship Waterloo, of 120 guns, is 205 1-2 feet in length. The Turkish frigate of 74 guns, begun by Mr. Eckford, is 220 feet long. The U. S. ship Delaware is 210 feet long, and the Pennsylvania building at the navy yard, Philadelphia, is over 230 feet in length.

Liberia Coffee.—We have been politely presented, by an esteemed friend, with a sample of Coffee raised in Liberia. We have found it very good.—This is one of the products which is to form a vast trade between our own country and the colony in Africa.—*Alex. Gaz.*

THE LOVER AND HIS FRIENDS.

FRIEND.

Nay, tell me not of raven hair,
Of sparkling eye, and bosom fair—
Too soon their beauties fly;
Upon her tresses Time will fling
The fleecy snow flakes from his wing,
And dim her beaming eye:
Then who on earth would madly prize
The darkest hair the brightest eyes?

LOVER.

It's all in vain—I cannot yet
Her warm heart scorn, her love forget,
For all that Time may steal;
And though her form and lovely face
May lose some witching charm and grace,
Her Bosom ne'er shall feel
That I could fly, in day's decline,
The beauties morning made divine.

LIST OF ARRIVALS

At the following Hotels, in this city, during the 24 hours ending at 10 o'clock, this morning.

PITTSBURGH HOTEL—C. M'KIBBIN.

G. H. Stewart, Loudenville, O.; T. Morgan, and Lady, Baltimore; Miss Morgan, do.; J. Cortello; Mr. Allyn, Philadelphia; Capt. Davis, Cincinnati; T. B. Davis, Maysville; Gen. S. Long, Philadelphia; Miss J. Cox, Wheeling; T. Morrell, Louisiana; D. R. M'Nair, Wilkins township; W. S. Johnson, Frankfort, Ky.; J. Weeble, Lancaster, Pa.; H. Mackey, Mount Vernon, O.; T. Sharp, Illinois; J. Means, Marietta, Pa.; T. Lucas; Wm. Rhodes, O.; Mrs. Sargent, Cincinnati; J. Reed, Philadelphia; J. M'Birnie, Brownsville; J. Alexander, Pittsburgh; Jas. Hartfor, Westmoreland co.

MANSION HOUSE—B. WEAVER.

Jos. Kissick, New Castle, Pa.; J. Olver, Braddocksfield, R. Lowry, Freeport, Pa.; J. Swift, Mercer, Pa.; D. Luke, Ebensburg; R. M. Ebert, Green Bay, M. T.; W. M. Lyon, Sligo Iron Works; E. Quinby, jr. Wooster, O.; B. Grant, do.

EXCHANGE HOTEL—B. MAGUIRE.

Wm. Farrel, Boston; William Dunlap, do.; John Kennedy, Reading, Pa.; D. Armstrong, Ky.; Jno. Elliot, Lancaster; Mr. Clark and lady, Philadelphia; Edwd. Duff, Pittsburgh; Wm. Long, Phila.

☞*On Sunday Evening next*, in Trinity Church, a *Discourse on Education* will be delivered by the Rev. Dr. Lacey. Service to commence at early candle lighting. Aug. 24, 1833.

W. W. FETTERMAN,
ATTORNEY AT LAW,

HAS removed his office to his dwelling house, in Water street—2d door above the Steam Mill. August 24, 1833.

TO COUNTRY PRINTERS.

FOR SALE CHEAP,

THE Materials necessary for a complete country Newspaper, and Job Printing Office, consisting of an Imperial Ramage Press, Long Primer, Brevier, Pica, and various other kinds of Plain and Fancy Type, Chases, Cases, Composing Sticks, Galleys, Brass Rule, of different kinds, one keg of Printing Ink, &c. &c.—These articles, with the exception of the Press, are *entirely new*, and remain in the boxes in which they were packed at the Foundry. They were purchased in Philadelphia, on the best terms, and will be sold at cost and carriage. A list of the materials may be seen, by calling on M. M. GRANT, at the office of the Christian Herald, to whom letters on the subject (post paid) must be addressed. August 24—3t

PITTSBURGH SEMINARY
FOR YOUNG LADIES.

THE duties of this Institution will be resumed on Monday, the second of September next, in the house formerly occupied by T. B. Dallas, Esq., Liberty Street.

S. R. PARRY, *Principal.*

August 23, 1833.—dtfS

The American Practice of Medicine;

BEING a Treatise on the Character, Causes, Symptoms, Morbid appearances, and Treatment of the Diseases of Men, Women, and Children, of all climates, on Vegetable or Botanical Principles, as taught at the reformed Medical Colleges in the United States; containing, also, a Treatise on Meteria Medica and Pharmacy, or the various articles prescribed, their description, history, properties, preparation, and uses—with an Appendix, on the Cholera, etc. Illustrated by numerous plates and cases—The whole preceded by Practical Rules for the prevention of disease and the preservation of health: 3 vols. By W. Beach, M. D. President of the Reformed Medical Society, and founder of the Reformed Medical Colleges of the United States, and principal Physician and Surgeon of the U. States' Infirmary, New York.

This day received and for sale by

S. J. SYLVESTER,
Corner of Wood and Third streets.

August 23, 1833.

Alleghany Female Institute.

Mr. and Mrs. ALDEN, having found the climate of Cincinnati unfriendly to the health of their family, deemed it expedient to leave that beautiful and flourishing city, in which they had commenced a Young Ladies' Boarding and Day School under encouraging auspices, and are become residents in the borough of Alleghany, in the vicinity of Pittsburgh.

They have taken the house, pleasantly situated on the second bank in this borough, recently occupied by the Rev. Mr. Halsey, where they contemplate opening a Young Ladies' Boarding and Day School, on the last Monday of the present month of August. On the suggestion of friends, they will also admit a class of little boys under eight years of age.

Boarding and tuition in any or all the branches to be taught by Mr. and Mrs. Alden, will be thirty dollars, a quarter, to be paid, quarterly, in advance. Each Young Lady will provide her bed and bedding, towels and napkins, or these will be provided, at two dollars, a quarter.

All day scholars will be charged, for instruction

in reading with its appendages of spelling, definition, derivation, and composition of words, writing, and arithmetick, $5.

—in English grammar, geography with the aid of globes, chronology, and the Latin and Greek languages, $6.

—in letter writing and other composition, rhetorick, history, logick, moral philosophy, and evidences of Christianity, $7.

—in constructing maps, the use of the pentagraph, belles lettres, astronomy, algebra, and geometry, $8.

—and in mathematicks, botany, natural philosophy, and chemistry, $10 a quarter.

Mr. and Mrs. Alden will teach French, and the former Spanish, at $5 a quarter.

Instrumental musick and painting will be taught, at this Institute, by distinguished instructers, at their customary charge, and instruments, for the use of learners, will be provided at a reasonable quarterly rate.

For every twenty pupils, a competent additional teacher will be employed.

As four weeks, a year, will be spent in vacations, twelve weeks of term time will constitute a quarter, including customary holidays.

Mr. and Mrs. Alden having had under their tuition, in different places, hundreds of Young Ladies, from most of the states in the American Union, as well as some from foreign climes, refer to them and to their parents and guardians as their epistle. Other credentials, of ample import, are on hand, to which their patrons may have access whenever desired.

Finally, the undertakers of the *Alleghany Female Institute* respectfully suggest, that it will be their constant aim to exercise a superintendence, care, watchfulness, and guidance, analogous to what is the duty of parents, over the manners, conduct, morals, and studies of the Young Ladies, who may be committed to them, as inmates in their family, mingled with mildness, tenderness, and firmness—and to exert themselves to lead all their pupils from one grade of useful knowledge to another, as their respective ages and capacities may admit—and, in short, to afford them every facility for acquiring such a polite, substantial, and finished education, as the present interesting period demands.

Alleghany, Pa. 20 Aug. 1833.

Tobacco and Segars.

50 KEGS, Superior quality, Ky. Manufactured TOBACCO;
400 boxes do. do. SEGARS;
10 bales com. qual. Ky. LEAF TOBACCO;
7 seroons Spanish do. do.

For sale by JOHN D. DAVIS & Co.,
No. 38 Water street.

MISS AUSTEN'S NEW NOVEL.

August 21, 1833—6t

Insurance against Loss by Fire.

THE Franklin Fire Insurance Company, of Philadelphia, respectfully inform the public, that they continue to make permanent or limited Insurance against loss or damage by Fire, in *town* and *country*, on Houses, Barns, Manufactories, Stores, and other Buildings—and on Goods, Wares, Merchandise, and Agricultural Products, at very reduced premiums.

Application may be made at the Office, No. 163½ Chesnut street, nearly opposite to the United States' Bank, either personally or by letter, addressed to

CHARLES N. BANCKER, *Sec'y.*

August 19, 1833—d3m.

TO PRINTERS, &c.

ADAM RAMAGE respectfully informs his friends and the public, that the continues to make Printing, Copper Plate, Copying, Seal, Lithographic, and other Presses.

Among the variety of Printing Presses in use, it is found necessary, where printing is so universal, to have one of a simple, cheap, and durable description; at the present reduced price of Printing Materials, a small office can now be furnished at a little more than the cost of one expensive and complicated Press.

His present Patent Printing Press is compact, with two perfect Iron Surfaces, instead of wood and stone, as formerly—requires no staying, and can be repaired by any common mechanic.

It is particularly adapted for the country, or for South America, where it is now generally known as the only press that can be transported into the interior of the country with safety and facility.—These Presses are of all sizes, from Imperial to Job and Card Presses, and at corresponding prices.

From his connection with all the Type Foundries of the U. States, he is enabled to furnish a complete Printing Office on the same terms as at the respective foundries.

He embraces this opportunity of offering his grateful acknowledgments for the liberal encouragement he has for a long series of years experienced from the trade, by which he has been enabled to manufacture a greater number of Printing Presses than any other individual in the United States; and will only add, that he is not now solicitous to do a greater business than he can manage with convenience, and continue to give satisfaction to those who may favor him with their commands.

All articles in the Printing line as usual, and on as reasonable terms as at other establishments.

Lithographic Presses, of his make, may be seen at the principal offices of that art in different parts of the United States.

☞ The subscriber would respectfully recommend Mr. Dickey to the attention of his friends.

J. CAROTHERS.

August 14—tf

PROSPECT HILL
Literary & Scientific Institution.
PITTSBURGH, Pa.

ON the 1st of July, Mr. DANIEL STONE intends opening, near the City of Pittsburgh, an Institution for the instruction of boys. Its plan is to combine, as far as possible, the peculiar advantages of a domestic and public education.—The pupils, with the principal and assistants, will constitute one family, and be at all times under careful supervision. The *Discipline* will be mild, but strict, such as a father, solicitous for the welfare of his children, would exercise over them. It is believed that an appeal to reason, and the sense of honor and duty, will generally secure obedience. Coercive measures will, therefore, be adopted only in extreme cases.

The *Course of Study* will embrace the English, Latin, Greek, and French Languages; Arithmetic, Algebra, and Geometry; Geography and History—Ancient and Modern; Rhetoric, Composition, and Elocution; Natural Philosophy and Chemistry; Penmanship, Orthography, and Reading. Frequent examinations will be held, open to the friends and relations of the youths.

The *Mode of Instruction* will be thorough and critical, and no subject will be relinquished until fully understood. That the scholar's mind may become vigorous, active, and self-confident—prepared for the stern conflicts of life, and a fearless discharge of its duties, he will be encouraged to reason and decide for himself.

Each student will be required to attend such church as his parent or guardian shall designate.

To preserve health and elasticity of spirits, to check indolence, and promote industry among the students, they will be daily exercised in athletic sports.

Pupils will be admitted between the ages of *Six* and *Sixteen*. None can be received for less than one term.

The uniform *Dress* will consist of a cap, blue roundabout, with metal buttons, and blue pantaloons. Every article of clothing should be marked with the owner's name in full.

The *Terms* are two hundred dollars a year, payable quarterly in advance. This includes Tuition, Board, Lodging, Washing, Mending, Light, and Fuel.

The *Vacations*, after the present year, will be three—the 1st, of two weeks, from the 3d Wednesday in April; the 2d, of four weeks, from the 2d Wednesday in August; and one week at Christmas.

The *Matron's* department will be under the care of Mrs. Reynolds, of this city.

August 5, 1833—tf

New Theatre, Pittsburgh.

THE Public is respectfully informed, that this ELEGANT NEW THEATRE, at present building, in Fifth Street, will be opened for the Season, under the management of the subscriber, with a Dramatic Company not surpassed by any in the Union, on Monday, the Second of September, 1833.

The building has been substantially erected, by those well known Mechanics, Messrs. *Roseburg, Reynolds, Scott, & McCulloch*, after a plan drawn by John Haviland, Esq., of Philadelphia, whose justly acquired fame as an Architect will be increased by the style and Beauty of the Present Edifice.

A first rate London Artist has been employed, for the last three months, in preparing the *Dresses* especially for this Theatre, which, in point of

ELEGANCE AND SPLENDOR,

Will equal, if not surpass those belonging to the Metropolitan Theatres of New York, or Philadelphia.

THE SCENERY

Has been designed and executed by Mr. J. R. Smith, a young Artist of great talent, and whose productions may challenge comparison with those of the most distinguished Scene Painters of the day.

THE MACHINERY

Has been entrusted to the care of Mr. Stafford, late of the Philadelphia Theatres, and the direction of the

MECHANICAL DEPARTMENT

Will be placed under the Superintendence of Mr. Hoffner, of the Chesnut Street Theatre, Philadelphia.

In addition to the exertions of the Regular Company, most of whom are advantageously known in the Eastern Theatres, the Manager has great pride and pleasure in informing the inhabitants of Pittsburgh and its vicinity, that he has engaged, at great expense, the celebrated American Tragedian

MR. E. FORREST,

Who will have the honor of appearing before them at an early period, of which due notice will be given. Negotiations have already been entered into with the most distinguished Performers of the American Stage, who will appear in rapid succession—among others,

MR. & MRS. HILSON,
MISS CLARA FISHER,
MRS. KNIGHT,
MR. J. R. SCOTT,

Also, Mr. PARSLOE, of the Theatre, Covent Garden, London, &c. &c. &c.

In making these arrangements, the subscriber has used every exertion in his power to render THE THEATRE a place of rational amusement—

"To raise the genius and to mend the heart;
Shew Virtue her own features;
Vice her own image;
The age and body of the time, his form and pressure."

And he throws himself confidently on the liberality of the citizens of Pittsburgh for support.

FRAS. C. WEMYSS,
Lessee Pittsburgh Theatre.

July 19, 1833—tf.

New & Valuable Publications.

VOLUME 4, *Condensed Chancery Reports.*—Reports of Cases decided in the High Court of Chancery, in England; edited by E. D. Ingraham, Esq., Counsellor at Law—containing the cases decided by Lord Elden, Lord Chancellor, Sir Thomas Plumer, Master of the Rolls, and Sir John Leach, Vice Chancellor, as reported by Mr. Jacob and by Lord Lyndhurst, Lord Chancellor, Sir John Leach, Master of the Rolls, and Sir Launcelot Shadwell, Vice Chancellor, as reported by Messrs. Russell and Mylne, in the first volume of their reports.

Sale's Koran—the Koran, commonly called the Alcoran of Mohammed—translated into English, immediately from the original Arabic, with explanatory notes, taken from the most approved commentators; to which is prefixed a preliminary Discourse, by George Lale, Gent., with a memoir of the translator, and with various readings and illustrative notes from Lavary's version of the Koran: first American edition, 2 vols., 8vo.

SATIN BEAVER

HAT MANUFACTORY,

NO. 6 ST. CLAIR STREET,

PITTSBURGH.

WILSON & SMITH, from N. York,

RESPECTFULLY inform the citizens of Pittsburgh and the neighboring towns, that they have commenced the manufacture of the above beautiful and elegant article, so much admired and worn throughout Europe, and the principal cities in the United States.

W. & S. beg leave to observe, that, after various experiments, they have at last succeeded in bringing this Hat to the highest state of perfection, and they can assert, with confidence, that in point of color, lightness, elasticity, durability, and general beauty of appearance, they cannot be surpassed by the most expensive Hat that is made. Gentlemen are invited to call and examine them, and judge for themselves.

Wholesale Dealers supplied at the same prices as in the New York markets.

April 23—1y

ABSCONDED from the Clinton Paper Mill, Steubenville, ABRAHAM WILLARD, an indented apprentice to Henry Holdship & Son.

All persons are cautioned against employing, harboring, or trusting him, as we will pay no debts of his contracting.

MILL AND CROSS-CUT SAWS.

THE Subscriber has the satisfaction to say to the public, and his friends, that he has connected with his other business, the manufactury of Mill and Cross Cut Saws; and can furnish supplies to merchants and others: he believes them to be equal to any ever used in the western country—the experience of the workmen employed, with the known good qualities of the steel, justifies him in warranting the article to any who may be disposed to patronize western industry.

Z. PACKARD.

Northern Liberties, Pittsburgh, } tf
December 9, 1831. }

DOCTOR ROBERT'S

☞ *WELCH MEDICAMENTUM.* ☜

FOR the cure of Dyspepsia, Liver Complaints, Jaundice, Cholic, Fever and Ague, Dysentery, Headach, Loss of Appetite, Flatulence, Hypochondria, Hysterics, Dropsical Complaints, and Heartburn, It also prevents all Bilious disorders, and removes habitual Costiveness. Asthma, Strangury, Gravel, Rheumatism, Gout, and Impurities of the Blood.

A person who uses this Medicamentum will not require the use of the lancet, or any means of the healing art. It restores and revives the animal spirits, invigorates the system, removes nervous tremors, obtunds rheumatic and anthritic pains, and prevents their return. It cleanses the stomach of all morbid humors, which cause indigestion, acidities, headach, and lowness of spirits; cures all bilious disorders, and all cholics of the stomach and bowels, almost immediately; inspires cheerfulness; gives comfort to the dropsical; takes away palpitation of the heart; gives circulation to the blood; restores bloom to the sallow or sickly cheek, and plumpness to the meagre habit; purges without pain, and banishes all cause of fever of every kind. It acts on the stomach, that great reservoir of the human system, a diseased state of which causes all diseases. No alteration in the usual habits of life is required, but the abstaining from distilled ardent spirits.

CERTIFICATE,

From Rev. Derick Lansing, D. D., Pastor of the Second Presbyterian Church in Utica.

Utica, Jan. 6, 1830.

To Dr. Hitchcock.—Dear Sir: I have always been one of the number of those who have placed little confidence in *nostrums* or *specifics*, and for this reason, although I saw your advertisement of the Welch Medicamentum, I could not bring my mind to consent to use it. My sufferings, from indigestion, during the past summer, were so severe, as materially to affect my comfort, and my capacity for usefulness. I have reason to thank you, sir, that, on hearing of the state of my health, you kindly sent me your Medicamentum. I have taken it faithfully, and with entire success. I have not been visited with one of those turns of distress, which before were weekly periodical, since I began to take your valuable medicine. Could I receive the same relief which I have hitherto experienced, on condition of taking it for life, I should cheerfully comply with such condition. Your's, very truly, D. C. LANSING.

☞ Sold by THOMPSON & MILLER, at their Drug Warehouse, No. 81 Wood street, Pittsburgh. Nov. 26 tf.

Receiving & Forwarding House,

NEW ORLEANS

THE SUBSCRIBER begs leave to inform his friends and the public, that he has established himself in NEW ORLEANS, for the purpose of attending exclusively to the Receiving and Forwarding of Merchandise; and feels confident, from his experience in business, and determination of adopting well regulated and moderate charges, of giving satisfaction to those who may entrust their business to his care. WM. BUCHANAN.

BRITISH LUSTRE,

For Polishing Stoves & Grates.

THIS LUSTRE, with a little rubbing, will produce a brilliancy highly ornamental; and, when once obtained, may be easily preserved.

For sale by H. P. SCHWARTZ & Co.

March 22—tf No. 42 Market street.

ANTI-DYSPEPTIC ELIXER.

ONE of the most agreeable and efficacious Medicines ever discovered for the permanent cure of those chronic states of derangement of the stomach, constituting that miserable disease called Dyspepsia.

The basis of this Elixer is vegetables, and perfectly innocent in its operation: it destroys that sour state of the stomach, the instant it is taken, and stops the morbid secretion, by giving strength to the muscular fibre of that important organ, by which means the peristaltic motion of the intestines is increased, and the costiveness obviated; a new action is given to the system, which puts an end to a train of distressing nervous sensations.

Another form of the disease in which the Elixer is admirably calculated to relieve, is the decline of fever, where the stomach will not bear the ordinary strengthening medicines indicated in such cases, it has the surprising effect of giving vigor, and restoring the natural secretions of the body, without increasing the febrile state. Not the least danger is to be apprehended from exposure to cold, while under the use of this medicine, nor will it interrupt necessary employment of the patient a single hour.

☞ A number of cases of cures performed by the Anti-Dyspeptic Elixer in the vicinity of Pittsburgh can be given.

For sale by H. P. SCHWARTZ & Co., No. 42 Market street. August 24, 1832.—tf

N. B.—For sale, a superior Tooth Powder. Also, J. White's Tooth Ache Drops.

March 10, 1832.—tf

GEO. W. CARPENTER'S

COMPOUND SYRUP OF LIVERWORT,

A SAFE and Valuable Medicine for Coughs, Spitting of Blood, Consumption, and Liver Complaints.

Most of the medicines made use of for the above diseases are of a stimulating nature, composed generally of Resins and Balsams, in alcoholic solutions, which, although sometimes giving temporary relief, in almost every instance where they are freely used, aggravate the disease, and reduce the strength of the patient.

This article possesses superior advantages over these preparations, its action being of a tonic, invigorating and strengthening nature, thus overcoming the disease by promoting expectoration, and gradually increasing the strength of the patient, and thus, without being attended with any unpleasant effects: it also agrees with the stomach, in all cases, and is a pleasant medicine to take.

Sold by

H. P. SCHWARTZ & Co.
No. 42 Market Street.

Dec. 4, 1832.—tf

CANVASSED HAMS.

JUST received, in superior order, 1000 CANVASSED HAMS—for sale by

JAMES ADAMS, Jr. & Co.,

Nov. 13—tf Water street.

PATENT PLANING MACHINE.—The right to use this valuable machine, invented and patented by William Woodworth, and known as Woodworth's Patent Planing Machine, may be obtained on application to the subscriber for the counties of Allegheny, Butler, Beaver, Washington, Green, Fayette, Somerset, Cambria, Indiana, Jefferson, Clearfield, M'Kean, Warren, Venango, Mercer, Crawford, and Erie, in the State of Pennsylvania. That part of Maryland lying west of the Blue Ridge; all that part of Virginia lying west of the Blue Ridge, except the county of Ohio. The whole of the state of Ohio except the counties of Hamilton, Butler, and Montgomery. The whole of the state of Kentucky, except the counties of Jefferson, Boone, Oldham, Gallatin, and Campbell. The whole of Indiana, except the counties of Floyd, Clark, Jefferson, Dearborn, and Switzerland. The whole of the state of Illinois, and the territory of Michigan. Rights to use the machine in that part of the United States, named above, will be sold by the single county or in larger districts. As it is presumed that no one will purchase without seeing the machine at work, a description of it is deemed unnecessary. Should any person, however, wish to purchase, and find it inconvenient to visit the places where it is in operation, a machine will be furnished, warranted to plane, tongue and groove, and bring to an exact width and thickness, a white pine board of 12 feet long, and of any width from 1 to 14 inches, in one minute and ten seconds, or an oak board of the same dimensions in 2 minutes and 10 seconds. Machines may be seen at work in the cities of New Orleans, Washington, Philadelphia, New York, Boston, and others at the south and east, at Wheeling, Virginia, and at the saw mill of Messrs. Irwin & Herron, in this city.

Persons desiring to purchase will have the certificates of scientific and practical men who have seen it at work, in the different places in which it has been put up, forwarded to them. They give their opinion as to the great value of the invention, state the time they have seen boards dressed by this machine, and describe the quality of the work as compared with that performed by hand labor.

LEONARD CHESTER,
Acting for the Proprietor.

Pittsburgh Hotel, April 19, 1831.

VALUABLE PROPERTY FOR SALE.

THE Subscriber offers for sale the farm on which he lives, in Washington county, on Pigeon creek, one mile south of Williamsport, on the Monongahela river, to which there is a perfectly level road. This farm contains near 400 acres, the greater part of which is first rate land. There is on the premises a Brick Dwelling House, a Merchant mill, in good repair, a new saw mill, a stone still house, 35 by 40 feet; a salt works is also in operation, and worked to advantage; about 150 acres of land cleared and under good fence. There is on the premises three small tenements for the accommodation of families. This tract is well timbered, and abounds with stone coal and springs of water, both of the best quality.

To a person wishing to embark in a manufacturing business, and possessing capital, this would be a very desirable situation, having the advantage of both water power from Pigeon creek, and banks of the very best coal near to the works, and easy of access, and its vicinity to so navigable a river, where articles of any kind are so cheaply transported to Pittsburgh.

For further particulars, apply to James P. Stuart, Merchant, Wood street, Pittsburgh, or to the subscriber on the premises.

Dec. 16—tf. ROB'T. M'FARLAND.

To Baltimore and Philadelphia

TRAVELLERS.

THE LINE OF STAGES between Chambersburgh and Baltimore, on the Somerset and Mountpleasant route, has been doubled, and now runs DAILY, (Mondays excepted,) leaving Chambersburgh *at day-light* in the morning, and arriving in Baltimore, early the same evening.

Passengers reach Philadelphia, in this way, the second afternoon, from Chambersburgh, without the loss of any rest; taking the splendid STEAM BOAT LINES, which set out at 6 o'clock in the morning. [via CHESAPEAKE AND DELAWARE CANAL, a work well worth the trip to see.]

REESIDE, Owner.

In all cases where the passengers desire to reach Baltimore in time for the 5 o'clock steam-boat to Philadelphia, they can do so by leaving Chambersburgh at one o'clock in the morning, or immediately after the arrival of the Western Mail Stage. In this way, they arrive in Philadelphia, by eight o'clock the *second morning*, from Chambersburgh.

☞ When a load offers, the stage will run on Mondays. April 23, 1830.—tf.

TYPE FOUNDRY.

HAVING purchased of Mr. Richard Ronaldson, his long established and very extensive Type Foundry, the subscribers have formed a co-partnership for the purpose of continuing said business, and for the convenience of their friends and patrons, have removed their establishment to a more central part of the city. As it is their intention to keep on hand a good assortment of the best type, and to make such additions and improvements as the taste of the trade and the wants of the country require, they flatter themselves that this establishment will merit a large share of patronage. They have now several founts on hand, which can be furnished at a few hours' notice, and are prepared to make founts of all weights and sizes, from Pearl to 22 lines Pica, including a variety of Ornamental Letter. Their assortment of Cuts, Dashes, Brass Rule, and other Ornaments, will be found to be very extensive, of which specimens will be forwarded to Printers as soon as they can be prepared.

Printing Presses of every description, Printing Ink of the most approved qualities, Composing Sticks, Brass and Common Galleys, Chases, Imposing Stones, Cases, Paper and Press Boards, Standing Presses, Furniture, together with a complete assortment of all articles used in a Printing Office, will be kept constantly on hand.

Small founts, suitable for Book Binders, in great variety, may be had when called for.

Orders from all parts in the Union will be promptly and most carefully attended to, and particularly in supplying *sorts* for all founts furnished by their predecessors, Binny & Ronaldson, and Richard Ronaldson.

JOHNSTON & SMITH,
No. 6, George street.

Philad. Feb. 18, 1833.

N. B. A good Washington Super Royal Press, and 3 Standing Presses, in good order—together with several founts of 2d hand type, will be sold low.

Stereotyping, in all its branches, executed by L. Johnson, as heretofore.

March 19.
